## Civil & Demolition Contractors

### Case Study

#### Badenoch Health Facility

#### Aviemore, Highlands

#### Main Contractor: Balfour Beatty

### Project Description:

Formation of a new Health Centre in Aviemore as part of the HUB Scotland Framework. DSC awarded groundworks package which contains all earthworks, substructure, concrete floors, services, external plant area and final hard landscaping.

### Key Works:

10,000 M3 of topsoil and sub soil excavation carried out.

Installation of external and internal drainage prior to steel erect.

Early formation of permanent site access and egress to assist with site set up and traffic management for the development.

### Project Challenges:

Site located between a private railway line and a National Rail line. Works within close proximity of the lines have to be co-ordinated and assessed accordingly.

Auger bore beneath private railway line undertaken in order to provide SW outlet from attenuation tanks to existing mainline drainage off site.
